In this Training you will Learn How To

- Analyze **nonverbal cues** to spot conflict **early** and **adjust**
- Identify key **escalation triggers** and **apply** learned **strategies**
- **Understand** and **adapt** to conflict over **digital/phone platforms**

Why Conflict De-escalation Skills Matter

Workplace conflict can affect individual's

- Well being
- Induce stress
- Increase absenteeism

Training will improve **conflict management**
Improves **performance** and **collaboration**

Recognize Conflict Early by Identifying **Non-Verbal Cues**

Look for these signs:

- Avoiding eye contact or aggressive staring
- Crossed arms or tense stance
- Clenched fists and erratic gestures
- Invading personal space

Let's look at an Example!

Situation 1 - Employee v. Employee

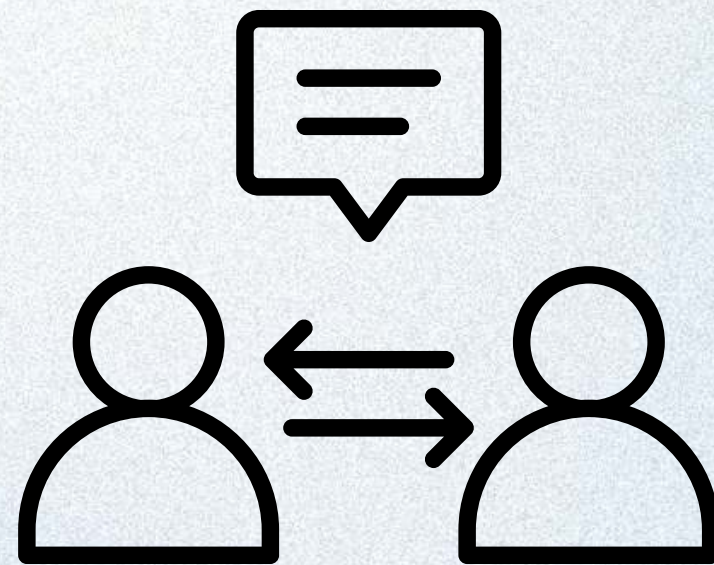

How to De-escalate Using Non-Verbal Cues

- Maintain a non-threatening posture
- Keep eye contact
- Keep a calm composure and relax your face
- Keep hands visible and loose
- Slow movement and pace of voice

Roleplay for Situation 1

Common Escalation Triggers

The **3** most common triggers include:

- Emotional overload
- Lack of communication
- Environmental pressures

Let's look at another Example!

Situation 2 - Employee v. Customer

How to Resolve these Triggers

Emotional Overload

- Acknowledge emotion
- Show that you care
- Ask questions
- Provide resources

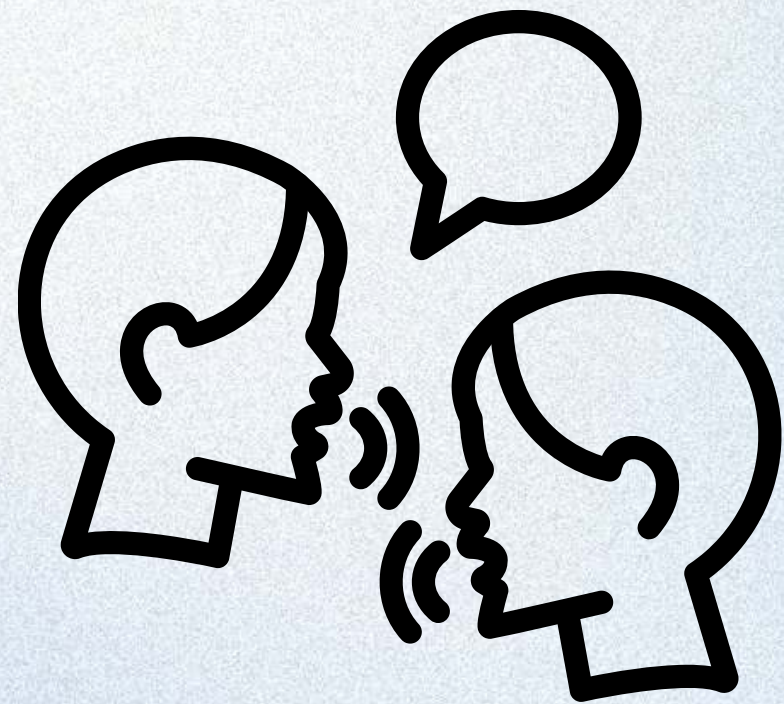

Lack of Communication

- Be an active listener
- Use empathetic language
- Clarify expectations and goals

Environmental pressure

- Provide guidance + next steps
- Ensure safety/manage risk
- Rework Schedules if needed

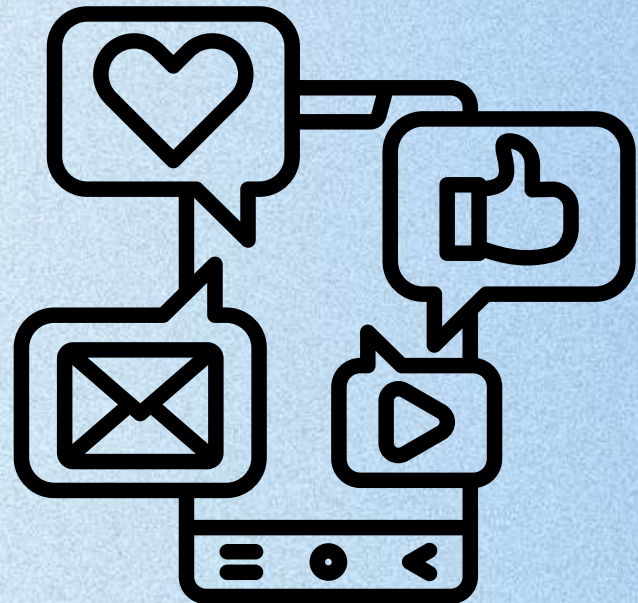

Roleplay for Situation 2

Conflict over Digital Platforms

Actions that may trigger conflict:

- Responding in a robotic, generic way
- Using defensive wording
- Responding without acknowledging emotion

Let's Look at our Last Example!

Situation 3 - Employee v. Customer

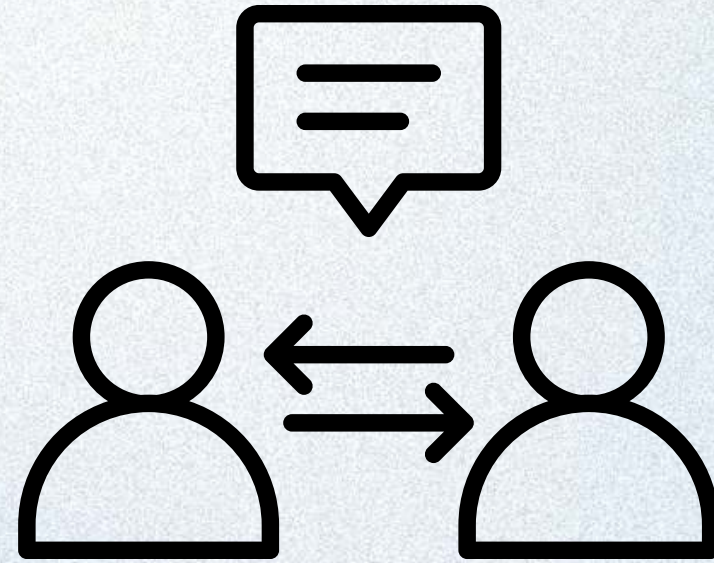

Verbal De-Escalation Techniques

- Acknowledge the person's feelings **first**
- Use **clear** and **respectful** language
- **Personalize** the response
- Ask **questions** and allow for feedback
- Provide **transparency** and clear **solutions**

Roleplay for Situation 3

Key Takeaways

- Conflict can be recognized early through **nonverbal cues**
- Escalation usually comes from **deeper triggers** that need identification
- **Calm and respectful communication** is one of the most effective ways to lower tension
- De-escalation across **digital platforms** require more extensive care
